### 2019 Sewer Collection System Performance Report & Annual Drinking Water Quality Report

Overall the Town's sewer system is in good shape. The main issues we encounter in our system stem from inflow and infiltration and root and grease buildup in the lines. We are consistently replacing old sewer lines, videotaping to identify trouble areas and sealing older manholes.

#### 2019 - We did not have any violations.

Spills that were less than the required overflow, we have not listed. Spills that do not enter surface water are dammed up to prevent spreading downstream and treated with an application of lime and then removed and taken to the Moore County Waste Water Treatment Plant.

I, certify under penalty of law, that this report is complete and accurate to the best of my knowledge. I further certify that this report has been available to the users or customers of the named system and that those users have been notified of its availability.

### Town Meetings are available remotely

Our town meetings are now available remotely and you can view the meetings on our website at [www.townofaberdeen.net](http://www.townofaberdeen.net). This is a new step by the Town, along with local governments all over NC, as we try to maintain an open environment for our

citizens to view our public meetings. Also, in an effort to slow the spread of the virus, all of our offices in Town, including police, fire, administration, parks, planning, and public works, will continue to be closed to public access. Staff is still working in a full-time capacity and we are providing all of our normal services in an on-line or by telephone manner where possible. *Thank you for your patience as we all work through this unique time together!*
